

Furniture Care Guide

1. Avoid direct sunlight for a long time and avoid being close to fire sources to prevent the rattan material from fading, drying, deformation, bending, cracking, loosening and detachment.
2. When cleaning, you can use a vacuum cleaner to vacuum it first, or use a soft brush to brush away the floating dust from the inside out, then wipe it with a damp rag, and then wipe it clean with a soft cloth.
3. After using it for a period of time, you can wipe it with light salt water, which can not only remove dirt but also keep its flexibility for a long time. It also has certain anti-brittle and insect-proof effects.
4. How to renovate original color (natural color) rattan furniture: first clean and dry, then use sandpaper to polish the outer pergola of the rattan furniture to remove stains and restore smoothness to the surface, then apply a layer of varnish to protect it, and it will look brand new.
