WARNING

- Do not place any objects in the path of the blades
- If unusual oscillating movement is observed, immediately stop using the ceiling fan and contact the manufacturer, its service agent or suitably qualified persons

MAINTAINANCE

- Once yearly clean your fan periodically to its new appearance
- Use only lukewarm water, do not use detergent, corrosive or acidic solution
- Damp the cloth lightly
- Use only soft or lint-free cloth to clean the fan, rough cloth will scratch the surface
- There is no need to oil the fan
- Use a soft cloth moisten with mild soap to clean the blade, and then use a dry cloth to wipe it again
